Electrification in the AR6 Scenario Database

Group: _____ Names: _____

Database: AR6 Scenario Explorer, https://data.ece.iiasa.ac.at/ar6/. Each group computes one demand-side measure and one supply-side measure for its region across the scenarios listed below.

Group assignments

Group	Region	Demand-side sector	Demand-side measure	Supply-side measure
1	R10NORTH_AM	Transport	Electricity share of transport energy	Renewable share of electricity
2	R10EUROPE	Transport	Electricity share of transport energy	Renewable share of electricity
3	R10INDIA+	Transport	Electricity share of transport energy	Renewable share of electricity
4	R10LATIN_AM	Transport	Electricity share of transport energy	Renewable share of electricity
5	R10PAC_OECD	Buildings	Electricity share of buildings energy	Renewable share of electricity
6	R10AFRICA	Buildings	Electricity share of buildings energy	Renewable share of electricity
7	R10REST_ASIA	Buildings	Electricity share of buildings energy	Renewable share of electricity
8	R10CHINA+	Industry	Electricity share of industry energy	Renewable share of electricity

Scenarios

Pathway	Category	Model	Scenario
CurPol	C7 (approx.)	GCAM 5.3	NGFS2_Current Policies
ModAct	C6 (approx.)	IMAGE 3.0	EN_INDCi2030_3000f
IMP-GS	C3	WITCH 5.0	CO_Bridge
IMP-Neg	C2	COFFEE 1.1	EN_NPi2020_400f_lowBECCS
IMP-Ren	C1	REMIND-MAgPIE 2.1-4.3	DeepElec_SSP2_ HighRE_Budg900
IMP-LD	C1	MESSAGEix-GLOBIOM 1.0	LowEnergyDemand_1.3_IPCC
IMP-SP	C1	REMIND-MAgPIE 2.1-4.2	SusDev_SDP-PkBudg1000

Variables

Each share is the electricity variable divided by the total variable. For the supply-side measure, add solar, wind and hydro before dividing.

Sector	Total	Electricity
Transport	Final Energy|Transportation	Final Energy|Transportation|Electricity
Buildings	Final Energy|Residential and Commercial	Final Energy|Residential and Commercial|Electricity
Industry	Final Energy|Industry	Final Energy|Industry|Electricity
Supply (all groups)	Secondary Energy|Electricity	Secondary Energy|Electricity|Solar, |Wind, |Hydro

Results

Pathway	Demand-side share 2030	Demand-side share 2050	Renewable share 2030	Renewable share 2050
